30mm Reflector for Seoul Semi 4W Acriche/P7 LEDs - Part No. 206

- Designed for 4w Acriche and P7 LEDs
- High light collection efficiency of >90%
- Precision moulded using POL’s patent applied for metallised optical insert moulding technique with a polycarbonate frame construction for superior mechanical and thermal stability
- Also available for other SSC LED package types
- Part of the Polymer Optics “Modular LED Optics™” range

Polymer Optics “Modular LED Optics™” design, based on a hexagonal format, allows maximum packing density and assembly flexibility. Arrays of single colour or colour mixed cells can be easily constructed.

The 206 Reflector Optic base is designed to push fit over the P7 style LED package to align to the LED source.

Typical dimensional tolerances to +/-0.2mm

In order to determine if the particular beam properties and performance of this optic are suitable for your application with your chosen LED type, POL suggests that you obtain samples from POL or their distributors for your own product testing, as properties may vary with different LED types.

Due to continuous product improvement, POL reserve the right to change specifications without notice.

30mm Reflector for Seoul Semi 4W Acriche/P7 LEDs - Part No. 206

The POL 206 optic’s narrow, high intensity beam is ideal for demanding applications, such as:

- Mining and caving lamps
- Under water lamps and torches
- Architectural spot lights (single colour and RGB arrays)
- Theatrical lights and follow-spots (single colour and RGB arrays)
- High performance torches
- High level flood lights
- Street lights
- Medical lighting applications

In order to determine if the particular beam properties and performance of this optic are suitable for your application with your chosen LED type, POL suggests that you obtain samples from POL or their distributors for your own product testing, as properties may vary with different LED types.

Due to continuous product improvement, POL reserve the right to change specifications without notice.
30mm Reflector for Seoul Semi 4W Acrice/P7 LEDs - Part No. 206

30mm Reflector Beam Converters in the Polymer Optics range:

265 – Medium Beam Converter

266 – Wide Beam Converter

267 – Elliptical Beam Converter

365 – Diffuse Beam Converter

Product Numbering:

The Reflector Converter optics are simply ordered with the required 30mm Reflector optic product, chosen from the POL range, to suit the target LED device.

The required Reflector Converter part number is simply prefixed to the base 30mm Reflector variant. So, for example, if ordering the basic POL 206 - 30mm Reflector with the 267 – Elliptical Beam Converter, the product part number will be 267/206.

Please see the entire range of POL 30mm Reflector Optic products for options, or enquire to POL for further information.

Due to continuous product improvement, POL reserve the right to change specifications without notice.
